June 16th 1920.

Dear Sir,

Owing to Sir George Cooper having been so much away from home this spring, the accompanying return of Rainfall in 1919 has been a good deal delayed, and I fear may not now be quite correct, as the figures of the Head Gardener are so indistinct, but if you would like to see the original, of which this is a copy, I could send it you, if you would kindly return it. If you are in a great hurry perhaps it would be best to write to the Gardener himself, whose address is Mr. Elder, Southampton Lodge, Hursley Park, Winchester, as I should only have to refer to him if you wrote to me.

Yours truly,

Secretary.

P.T.O.

I am afraid I cannot fill in the details on the small slips, so perhaps, if necessary, you will send it to Mr. Elder.

Dear Sir

In reply to yours of the 4th inst. I very much regret the blunder in the Rainfall Return from Fritham.

My gardener asks me to apologize for his unaccountable mistake: he is usually so careful & exact, that I did not — unfortunately — check his calculation.

35.47 inches is the correct total for the year

Yrs faithfully

LAKE HOUSE,
NETLEY ABBEY,
SOUTHAMPTON.

Jan: 6th 1916

Miss Pennington presents her compliments to Dr Mill and begs to enclose copies of her record of rainfall in 1915 - Also she sends postal order for 10/- for a copy of "British Rainfall for 1915" -

She notices in B. Rainfall 1914 that she registered rain on a greater number of days than

Mr Courtenay Wilson in
her neighbourhood – she
thinks it may possibly be accounted for by the fact that
she lives close to the Southampt
Water, where there is a certain
amount of sea fog, while
Mr C. Wilson's refractor was kept
on a hill perhaps four miles
inland.

Dear Sir,

In reply to your letter of the 10th inst. I beg to inform you that the readings in 1919 were taken in millimetres, which, as you say, may account for the trifling differences in the returns sent to South Kensington and the annual return (in inches) sent to your office.

Yours faithfully,

A Mearns Fraser

WEST MOUNT,
RINGWOOD,
HANTS.

23 Feby 1915

Dear Sir

I am obliged by your letter of yesterday, but I make the Rainfall for last July 4.07 & the total for the year 39.71 I must therefore by mistake have written 37.71 instead of 39.71

I enclose my original chart, which please return, & you will see if there is any mistake in your copy

Yours sincerely
